PROFILE

Technical procurement and operations professional with experience across manufacturing, supply chain, international B2B operations and ERP/data. Recent A.K.S. work covered sourcing across 30+ EU/US suppliers, RFQs, source selection, negotiation, supplier recovery, electrotechnical/electronics components within a broader technical purchasing catalogue, NPI/change and daily AX/D365 execution. Strongest where supplier capability, engineering change, material visibility and production continuity have to work together.

WHERE I COULD CONTRIBUTE AT VEO

TECHNICAL PROCUREMENT & SUPPLIERS	NPI & SUPPLY READINESS	SUPPLY CHAIN & OPERATIONS
RFQs, source decisions, negotiation, alternatives, supplier performance, capacity and quality recovery.	Turn approved technical change into supplier, material, lead-time, documentation and production-readiness action.	MRP, inventory, shortages, ERP/WMS accuracy and operational priorities translated into practical decisions and recovery.

PROFESSIONAL EXPERIENCE

TECHNICAL BUYER SOURCING, SUPPLY CHAIN & SUPPLIER QUALITY A.K.S. Finmekanik A/S Hvidovre, Denmark High-mix precision manufacturing supporting defence, aerospace and advanced-technology customers. Employment ended when the company entered bankruptcy proceedings. - Owned assigned technical sourcing and supplier/material scope across 30+ EU/US suppliers; ran RFQs, compared offers, selected or replaced sources, introduced alternatives and made routine sourcing decisions within delegated authority. - Negotiated price, quantity, lead time, delivery cadence, payment and supply conditions; used framework, call-off and staged-delivery structures and escalated major, high-risk or legally complex commitments. - Sourced raw and semi-finished materials, customer-specific mechanical components, electrotechnical/electronics items, surface treatments, specialist subcontracting/testing and production/MRO needs. - Managed supplier continuity and recovery across confirmations, shortages, expediting, capacity constraints, reallocation, rework/returns, quality documentation, FAI and NCR/SCAR follow-through. One smaller supplier was stabilised by resetting capacity commitments and moving urgent work. - Connected change to execution across 200+ complex multi-level structures and 2,000+ AX/D365 purchasing/product/planning records; kept suppliers, materials and first-production readiness aligned as drawings and revisions changed. - Improved commercial and ERP data quality by identifying conflicting cost/sales-price data affecting 100+ items during incoming customer-order/commercial checks; the IT Manager also asked me directly to investigate and improve data quality. - During about three weeks of reduced coverage, kept critical supplier, material, ERP and production-readiness work moving across tasks normally shared among three people by prioritising blockers, owners and handovers.	Jul 2024 - Jun 2025
Warehouse Coordinator - Operations & Team Support IKEA Distribution Center Høje Taastrup, Denmark - Investigated WMS stock/location discrepancies through cycle counts, SKU/material tracing and reconciliation; monitored inbound/outbound flow and helped coordinate daily priorities. - Supported onboarding, handovers and standard work in a high-volume operation, with practical gatekeeper/escalation responsibility during manager coverage.	Mar 2020 - Jul 2022

ADDITIONAL RELEVANT EXPERIENCE

Operations / Supply Chain Coordinator

Feb 2017 - Mar 2018

Heinz Wattie's / Kraft Heinz | Christchurch, New Zealand

- Reconciled orders, forecast, consumption, inventory and incoming supply across five production lines and 40+ variants; coordinated Purchasing, Warehouse and Production around shortages and reprioritisation.
- Translated changing demand and commercial signals into material and production priorities, keeping physical flow aligned with what customers and the plan actually required.

EARLIER INTERNATIONAL, PURCHASING & QUALITY EXPERIENCE

Purchasing & Supply Chain Coordination

Feb 2016 - Nov 2016

Fletcher Building | Auckland, New Zealand

- Created and followed POs and goods receipts in SAP across approximately 15-20 suppliers; coordinated confirmations, pricing/tender inputs, availability, delivery timing and discrepancy correction.
- Supported sales/category analysis and practical process improvements around purchasing and supply execution.

Operations Support Officer - French & European Inbound

Apr 2013 - Sep 2015

AOT Inbound / ATS Pacific | Melbourne, Australia

- Owned assigned French/European B2B files from enquiry, rate and quotation inputs through supplier bookings, live delivery, invoicing/receivables, disputes and urgent recovery in NAV/Navision.
- Worked across countries and time zones with broader Asia-Pacific/Singapore counterpart exposure, carrying issues through to resolution rather than handing them off at booking.

Production & Quality Technician

Sep 2007 - Mar 2012

ArcelorMittal | Mouzon, France

- Industrial production and quality foundation covering ISO 9001 routines, process control, internal/process audits, nonconformity and corrective-action follow-up.
- Used Lean/5S, 5 Why and Ishikawa methods in a hands-on manufacturing environment where process discipline, safety and repeatability mattered.

PROFESSIONAL DEVELOPMENT

- Completed an SAP S/4HANA / PP-MM refresher fully in Danish.
- Continued hands-on development in Power BI/DAX, Power Query, SQL fundamentals and Python basics using procurement and operations-oriented examples.
